February 2016

littleclassicalgas@gmail.com (editor: Rhonda Gale 604.521.3021)

*February 8 is the beginning of the lunar Year of the Monkey and at our February 9th meeting we're going to start monkey-ing around too!*

At the February meeting Fred Wallace will bring a **SU carb**, parts, and information and we will have a talk and interact session with the members. Jim has sent some SU carburetor information that will be made available by email to any individuals who leave their name after the meeting. Fred is not proposing to print a ton of this stuff out as a handout. Max time on this is 15 minutes.

\*For Sale: MG Parts must be moved! Are you interested? Includes 6 Midgets, 1 Sprite, 4 MGB roadsters, 1 flat deck trailer. For more info: Dan MacDougall, 604 589 9009, [eccentric.crank.pin@gmail.com](mailto:eccentric.crank.pin@gmail.com)

**Oliver Benz - White Rock** Jim McLagan and Doug Haakonsen recently visited with Oliver at his in-home shop in White Rock. A former club member during his E Type years, his interest now lays in replacing/servicing clocks, tachs, speedos and instrument panels. He has a vast array of spare parts and loads of problem solving experience. If you are having a problem, his first advice is to simply call and talk. If you are planning to be in the White Rock area, and would like to know more about his work, call first, then pop by for an informal tour. 604 535 6221

\*\***Wanted:** I'm setting up a shop to commence the restoration of a couple of MGAs, pretty much from scratch, and wondered if anyone had any equipment that you have been thinking of selling. Initially, a decent compressor and air tools, an English wheel, a MIG welder, possibly a solvent tank and sand blast cabinet. Steve Wohlleben [swohlleben@shaw.ca](mailto:swohlleben@shaw.ca) 250-247-9676

**Northwest Import Parts - Portland Oregon** Peter Tilbury mentioned he recently placed and received an MG parts order from Northwest and was very pleased with the delivery and service provided by Steve Rollins (owner). The company, in business since 1984 regularly ships to Canada via the US Mail service or to border points like Blaine WA inexpensively for customer pick up in 1 - 2 days. According to Peter the documentation was all in order which allowed for quick Customs clearance. Check out their website or give Steve a call the next time you're looking for MG parts and remember to tell him you saw the ad in Classical Gas.
