*** **For Sale...Jaguar XKE Coupe series I 1/2 1968** with faired head-lights and 4.2 litre engine with 3 SU carbs, 4-speed gearbox, Chrome knockoff wire wheels. I bought this as a project several years ago and have done some work on it. However, due to poor health, I am reluctantly unable to continue. I renovated the fuel and ignition system and have had it running. The clutch slave cylinder is not working so it is not driving. I have the parts. The exhaust system is new. The hood is mainly renovated and is in parts. The car has been previously painted British Racing Green and is generally in excellent shape except for some filler around the rear wheel arches. The doors, 2 sides and rear are installed.

Included:

- All the interior and exterior trim and glass.
- Lots of new stainless steel and regular fasteners.
- Several MARTYN ROBEY brand new body parts.
- A large amount of tools including new large socket set and power tools.
- 2 chrome exhaust resonators (brand new in box)
- Factory manual and Haynes manual.
- 4 HD steel axle stands and a roller lever jack.
- Rust inhibitor and paint.

Stored in a dry, warm, underground garage.

\$12,000 OBO Serious enquiries only please.
